Municipal Institutions.

There is observable throughout British Columbia a growing disposition to come under the operations of the Municipal Act of last session. We accept the tendency as of good omen. If self-government be good,—and surely no one will question that it is good for an intelligent and self-reliant people—it is well that the people of this Province should possess that good in all its fullness. And, in a country like this, that cannot well be attained without having recourse to Municipal Institutions. It is very expensive and often extremely unsatisfactory to have the most trifling and purely municipal matters of remote and inaccessible localities administered by the central Government. Probably Ontario is the most progressive Province of the Dominion. We will not say that it is the best governed; but we will assert that it enjoys self-government in a fuller sense than any other. Under its admirable municipal system, self-government is extended to every settlement, the right and the machinery to manage his own local affairs follows close upon the heels of the pioneer settler. Deprive Ontario of her municipal system, leaving every matter to be administered from Toronto, and what a blank, what confusion would be the result. Municipal institutions are even more essential to self-government in this Province, where distances are so great and the means of communication so imperfect. We regret to see a disposition on the part of our Cariboo contemporary to exaggerate the defects of the Municipal Act. That it is a perfect measure no one will claim. That it is superior to most maiden efforts in that direction, we fearlessly assert. It is one of the legitimate functions of the press to criticize public Acts; and, when properly exercised, the function tends to useful reform. But we must be permitted to think that the criticitm of our contemporary has been the result of a cursory and very imperfect perusal of the Act. That it has faults we admit, but our contemporary does not appear to have been very fortunate in hitting them. To our thinking, the most objectionable provisions of the Act are contained in clause 22, where the Lieutenant-Governor takes power to veto every By-Law passed by the Municipality. In a previous article we pointed out the absurdity of this provision, so that it will not be thought necessary to go over that ground again. Not only is the clause in question highly objectionable, but it is singularly defective. It provides "that the Lieutenant-Governor may, if he thinks fit, refer any By-Lay, or portion of a By-Lay, to a Municipal vote, which shall be taken in the manner hereinafter provided," —and a careful search through the subsequent clauses fails to discover any provision whatever for taking such vote. In justice to the author of the Bill (Mr. Beaven), it is proper to state that the Addle-pated Attorney-General was the author of the clause, and that the Cabinet of lawyers managed to force it through a thin House, despite the opposition of the gentleman who introduced the Bill. To our mind the restriction of the municipal franchise to British Subjects is also open to objection. But, with these two exceptions, we must repeat that the measure appears to be a very good and useful piece of legislation, quite a credit, in fact, to its author, and one which we hope to see very generally used throughout the Province. It is to be presumed that these objectionable features of the Act, or at least, the principal one, will be eliminated during the approaching session. In the meantime we regret that our esteemed contemporary should have thought the measure deserving of such a sweeping sentence of condemnation as has been, as we think, most undeservedly passed upon it. The article of our contemporary concludes thus: "The Act will admit of considerable study." One cannot but be struck with the fitness of the observation as applied to the case of the writer in the "Sentinel;" and we must be excused for expressing the conviction that a little more study on his part would reveal the gratifying fact that ample provision is made in the Act for the matters complained of.

More Grit Insults.

At a recent political gathering, held at Cornwall, Mr. Mackenzie delivered a five column oration, in the course of which the following choice passage occurred:—"Poor Sir Francis Hincks, driven from Renfrew, driven from Brant, had taken refuge in the far-distant island of Vancouver, where he could lave his wearied feet in the waters of the Pacific. They would not have him on the Ottawa, they would not have him in Western Ontario; but it seemed that the Indians of Vancouver were willing to have him for a representative. So we had a man representing nobody as Finance Minister of the Dominion. It was said that there were 1,460 inhabitants in the whole place. The white population of British Columbia was 10,354—at least, they were not all white, 500 of them were negroes and a few Chinese. Sir Francis Hincks having the whole of the finances of the Dominion under his charge, was content to be representative of this remote colony." Need there be any surprise that a party whose chiefs habitually hold such language towards the Pacific Province should find no adherents therein? Mr. Mackenzie may be an able man; but we cannot think him a clever politician. If he cannot stab a political opponent except through a Province, it strikes us that he would act more wisely in letting the opponent slip. If he cannot damage Sir Francis Hincks without insulting British Columbia, he had better let Sir Francis alone. If he cannot be a Minister, he might at least try to be a gentleman. British Columbia is not likely very soon to forget the treatment she has met with at the hands of the Grits of Ontario. It is not in the nature of things that she should. Sir John and his colleagues must laugh in their sleeve at the short-sighted policy of the Opposition.

A Hundred Years ago.

In January, 1772, two unmarried ladies of high birth having quarrelled about precedence, fought a duel in the garden of a house in Paris with knives. Of the fair combatants one was wounded in the arm and the other in neck. In 1872, a duel has just taken place in America, between two women, also with knives, the quarrel having arisen out of a law affair. In this case one of the furies was killed on the spot. People are horrified because good coal cannot be obtained in London at less than 30s. to 33s. a ton. In the early part of 1772, in consequence of a long continuance of contrary winds, the Londoners were equally vociferous about the price of coals, but with more reason, for at one time they fetched no less than 147s. 4d. the ton. Now a days a traveller can pass from Holyhead to Dublin in about four hours. A hundred years ago, Earl Harcourt, who had been appointed Lord Lieutenant of Ireland, embarked at Holyhead on a Saturday night, and did not reach Dublin till early in the morning of the following Monday.

Mrs. Coriell's benefit came off last evening, and was quite a "gala" night at the Theatre. A full house showed public appreciation of this accomplished and charming actress. The programme was much as usual with the exception of some ventriloquist feats on the part of Mr. Coriell which were very good. The acting and singing were much above the average, no doubt caused by the encouragement which the troupe derived from the loud applause of the crowded house.

WARDEN OF THE GAOL AND SUPERINTENDENT OF THE POLICE.—In no respect have the wishes of the Legislature been more completely ignored than in the appointment of Mr. Sullivan of Cariboo as Warden of the Gaol and Superintendent of Police. When the item ($1745) was under discussion in Committee of Supply, great reluctance was manifested by hon. members to its passage, and it was only upon the solemn assurance of the Premier that an experienced man would be sent for from England or Canada that the item was passed after a long discussion. The forcibly-illustrated remarks of Mr. Speaker on that occasion will not soon be forgotten by those who heard them, and, viewed in the light of the appointment of Mr. Sullivan, appear almost prophetic. It may be true that the Government tried to get a detective from abroad to accept the billet and that they failed; but they had no right to fly in the face of the expressed opinion of the Legislature and their own solemn pledge and appoint a man with less experience and ability than the men already connected with the force in this city. The appointment looks very "fishey;" and—but pshaw! is it not piece and parcel with all the acts of McCreight & Co.—an utter ignoring of the People's wishes? "The People, indeed! who are the People?"

FROM NANAIMO.—The steamer Isabel, Capt. Ramsey, with 124 tons coal for Brodrick & Co, and Messrs. M. Bate and John Hirst as passengers, arrived last evening from Nanaimo. Several new dwellings are being erected at Nanaimo, where business is brisk. The bark Shooting Star, 20 days from San Diego, California, arrived on Thursday afternoon, and was towed in by the steamer Isabel. She will load for San Diego. A miner was killed in the Douglas pit on Thursday. The Isabel sighted the steamer Emma, from Victoria, under sail yesterday. She was apparently disabled. The schrs. Black Diamond and Anna Beck and sloop Hamley are on the way down with cargoes of coal.

MR. HUNTER, M.P.P. This staunch Independent has twice declined employment at the hands of the McCreight Ministry—once declining to survey public lands and again in declining the Surveyor-Generalship of the Province. Having undertaken to represent his constituents, Mr. Hunter has felt it to be his duty to decline any favor at the hands of this Government. Perhaps the Ministers will now conclude that their policy of buying up Independent and Opposition Members is not likely to meet with much success.

CARICATURES.—A set of caricatures—the joint production of the Chief Commissioner of Lands & Works and Mr. James Robson—are being photographed by Mr. Shakespeare. The caricatures have been four weeks in preparation. That naughty sheet, THE COLONIST, of course, forms the subject of the sketches. The Ministers just now, appear to have COLONIST *on* the brain." Copies of the caricatures will be exhibited by the obliging Chief Commissioner at the Lands & Works Office to-day.

THE FUTURE.—The Quebec "Budget" thus concludes an article upon the resources of British Columbia: "With such a country made easily accessible by the Pacific Railway with the St. Lawrence, increasing trade, commercial and manufacturing industries every year becoming more thoroughly developed, and our lines of ocean steamers extending the communication with the world, and our lines of railways, a bright future cannot but be prophesied for the Dominion."

THE BALL ROLLING ON.—Another obstacle to Confederation has been knocked away in Prince Edward Island. The "Islander," a paper hitherto one of the strongest exponents of Anti-Confederate views, has changed hands, and is now preaching Union as it before opunciated arguments against it. Assuredly this change may be accepted as an undoubted sign of the times.

WE are credibly informed that the first and only Police duty performed by Mr. Sullivan, the newly appointed Superintendent of Police, was in this Province. How say you, honorable gentlemen of the Legislative Assembly, are the Ministry Guilty or Not Guilty of another breach of faith in making this appointment?

HAY.—Timothy hay at Seattle has advanced from $15 and $16 per ton to $17 50, with small supply in the market. Ellis & Foster have purchased a lot of California hay made of oats, for which they paid $40 per ton. Farmers in this country say that hay will bear an advanced price this winter, especially if the winter be severe, for the hay crop of this year was light. $16 per ton for timothy hay in this market is not what it is worth. It will sell for $20 or $25 before Spring.—Seattle Dispatch.

FREAKS OF CLIMATE.—Potatoes were cut off 3 weeks earlier at Williams Lake, altitude 1,200 feet, than at Riskett's farm on the Chilcoaten River, altitude 2,400. The frost seems to run in currents and not to be so much affected by altitude. Thus the Chilcoaten plains, at a higher altitude, are free from frost, while the valleys on this side the Fraser, surrounded by mountains, aldo' at a lower altitude, have everything cut off.

FOR NEW WESTMINSTER.—The steamer Enterprise left yesterday morning at 9 o'clock with 40 tons of freight, a Mail, and Barnard's Express. There were several carcases of sheep and pigs for Mr. Scott. The following passengers went up: Mr. J. Farr and wife, and Messrs. Miller, Jno. Irving, D. Withrow, Turner, McMicking and Graham. Also, a lady whose name we could not obtain, with three children.

THE traffic returns of the railways in the United Kingdom, for the week ending October 18, 1872, show an increase of receipts amounting to $63,770, over the corresponding week of 1841. The mileage of the railways in 1871 was 13,771; in 1872 it was 14,030. The receipts per mile for the week in 1871 were at the rate of £70 3s.; and for the week in 1872 at the £73 7s.

THE SHIP PANTHER, Capt. Kilton, coal-laden at Nanaimo for San Francisco, anchored in Royal Roads last evening, and Capt. Sabiston, the pilot, came ashore. Heavy weather was experienced on Thursday night off Discovery Island. The sea broke over the fo'c'yard of the big ship. Capt. Sabiston says it was the roughest weather he has encountered in these waters.

FIRST WAVE OF THE TIDE.—Under this heading the Montreal "Gazette" has an article upon the impending influx of population, in the course of which it states that, "late cable dispatches convey the intelligence that a large body of emigrants from the late French Province of Alsace and Lorraine are on their way to the Dominion."

FROM PORTLAND. The propeller California arrived from Portland, Oregon, at 5 o'clock yesterday. She brings 216 tons of farm produce, and Wells Fargo's Express. The value of her freight as taken from the manifest is $8,718 51. Here again is nearly $9,000 lost to the farmers.

THE American Government, having borrowed the original drawings, castings and core boxes of the handsome lamp standards on the Victoria Embankment, London, are about to erect similar ones in front of the Treasury at Washington.

THE steamer Grappler left yesterday at 2 p.m. for Burrard Inlet, whence she goes to Nanaimo for a load of coal for Brodrick & Co., and will return to this port on Sunday. On Monday next the Grappler will again leave for Burrard Inlet.

POLICE COURT.—John Forsell, charged with stealing two cords of wood, the property of Peter Olsen, valued at $10, was remanded till Wednesday.....J. Wright, charged with being a rogue and a vagabond and having no visible means of support, was discharged with a caution.

MEMBERS' INDEMNITY.—At a public meeting held at Lillooet on the 10th inst. the action of Cariboo with regard to the indemnity of members was endorsed unanimously. This action, it will be remembered, called for an increased indemnification.

EVACUATION OF SAN JUAN ISLAND.—Our telegraphic dispatches gives an interesting account of the evacuation of San Juan Island by the British Garrison. The Scout will be over this evening.

INCREASED RATE. Welch, Rithet & Co., agents for the Imperial Insurance Company, have received instructions from the home office to impose the rate of premiums on mercantile risks 50 per cent.

STORM.—Capt. Hayes reports a living gale blowing on Puget Sound yesterday. The California came in with a white smoke stack.

THE steamer California will leave Esquimalt for Portland direct on the 28th inst. She will load coal at Nanaimo.

THE bark Princess Royal has been chartered to carry spars from Usalady to London.

THE Sir James Douglas, with the Bute Inlet and Seymour Narrows parties, is expected to-morrow.

MR. MARCUS SMITH, Mr. McLellan and the remainder of the surveying parties are expected from the Mainland to-day.

OUTPUT.—The Douglas and Newcastle pits at Nanaimo, are putting out 230 tons of coal daily.

Colored Jurors.

EDITOR COLONIST:—Will you be so kind as to allow me to correct the article which we find in the "Standard" of this morning in reference to colored jurors. I consider it to be a deliberate insult to the colored people to say that their desire in this matter has at length been conceded.

It would be much more manly to say that our RIGHTS have at last been conceded. We can bear any amount of injury, but when insult is added, then it becomes us as men to speak. JUSTICE.

LAST NIGHT'S DISPATCHES.

California.

SAN FRANCISCO, Nov. 21 — About 2000 noisy and boisterous men and boys assembled near Platt's Hall to hear Laura D Fair lecture. They found the doors closed and no lamps in the building. The police are on the alert and in strong force. Mss. Lane, mother of Mrs. Fair, appeared on the streets but was not molested. About 8 a.m. a number of people gathered in front of Mrs. Fair's residence on Kearney street and uttered all sorts of threats and imprecations. A man told the people near the door that she had gone from the city, but it was soon found that she was in the building. About 8 o'clock Mrs. Fair sent to Sheriff Crowley for an escort of officers, but he declined to send any aid and advised her to stay at home—that it might not be safe for her to appear on the street. He would disperse the crowd, but would decline to give her an escort. Her carriage stood in waiting before the door, but she finally ordered it away and remained in her room, refusing to see any one but a few personal friends. At this hour there is a crowd at each place, but the people are quiet and no act of violence is feared.

SAN FRANCISCO, Nov. 22.—Chas. A. Southerberg went to a saloon on Broadway this morning, and got into a quarrel with Albert Sternberg, the barkeeper, who struck him a blow, cutting his head badly and dislocating his shoulder. The injured man was taken to the County Prison suffering greatly. Sternberg was arrested and held bail for assault and battery.

Wm. Clark is under arrest charged with rape upon a young girl whom he was escorting from the skating rink. John Ward and another girl were with them, and Ward is accused of attempting a similar outrage on the person of his companion; but the police have not found him. The girls were taken to a vacant lot on California street.

Oregon.

PORTLAND, Nov. 21—The contract has just been let by the Willamette River Transportation Company for building a large first-class steamboat to run on the upper and lower Willamette in connection with the Annie Stewart. Contracts for another steamer by the same company will probably be let soon.

The weather having moderated boats have resumed running on the upper Columbia as far as Wallula.

The "Bulletin's" commercial estimate is that there will be a surplus of 48,000 tons of wheat after the fourteen vessels now en route to this port have completed their cargoes.

Eastern States.

NEW YORK, Nov. 21—The "Commercial Advertiser" has information that many colonists in British North America are preparing to hold a mass meeting in favor of annexation to the United States. There are said to be ten organizations in the Dominion whose sole aim is annexation to the U. S.

The authorities have failed to discover the counterfeiter of the Union Pacific Income bonds. One hundred and eight coupons, purporting to be $10,000 bonds, have been paid.

The widow of A. D. Putnam, who was killed by D. Foster with a car-hook, has brought suit against the Seventh Avenue Railway to recover $50,000 damages for the loss of her husband, her counsel contending that the Company were bound to protect him from injury while on their cars.

CHICAGO, Nov. 22—Special dispatches from Winona, Minnesota, contradict the report that 800 track-layers on the extension of Winona and St. Peters railroad, are blockaded by snow and in danger of starvation, or are even suffering. Snow is not so heavy as reported. Blockade of railroad was caused by drifts in cuts and ravines.

Nothing has been heard of the Louisville Insurance Agent, Geo. M. Pevy, and a few think he is alive.

Nearly three hundred Italians, now at Castle Garden were defrauded of all their money by a band of emigrant swindlers. It appears they were induced to leave home by stories of advantages awaiting them in Buenos Ayres. They were told in Marseilles that a vessel would be at New York to take them to Rio, and arrived here on Wednesday to find they had been robbed.

The report of the Secretary of the National Board of Fire Underwriters, now in session here, states that the average profits of late years do not average ten per cent. The losses by the burning of the tobacco warehouse in Jersey City on Wednesday evening will be reduced by salvage to $300,000.

Gen. Cluseret has turned up in Geneva, where he is living in retirement. He disappeared from Paris in disguise.

PARIS, Nov. 21—At a meeting of Deputies of the Left to-day the Committee which had been appointed to draw up the platform of policy recommended the following measures:—The appointment of a Parliamentary Committee of thirty to deliberate upon and report to the Assembly organization laws best fitted to insure the working of a legal government and republic; prolongation of Thiers' term of office to four years; nomination of a Vice President; creation of a second Chamber of the Assembly and Ministerial responsibility and harmoniousness of Republican institutions. The report was unanimously approved. The members of the extreme Left endorse Gambetta in saying that the dissolution of the National Assembly is the sole remedy for the present difficulties.

The Com. in their address will demand of the President the appointment of responsible Ministry; that he shall not participate in the debates of the Assembly and shall communicate with that body only by message. Those points will be strongly contested by the advocates of Thiers when the reply is presented by the Assembly. BRITISH CAMP, Nov. 22.—The evacuation of this garrison took place this a. m. The stores, ammunition, Government property, etc., etc., were taken on board H. M. S. Scout early in the morning. At about 11 o'clock, the troops were drawn in line, inspected and marched to the boats of the war vessel, which was done in the most orderly manner. When all were embarked, Capt. Cator, of H. M. S. Scout, complimented the men on their behavior, saying, "Marines, you are a credit to your country." The crowd of Citizens who assembled to witness the evacuation and take leave of their old friends, many of whom have been here for many years, and one ever since the detachment was first formed, gave them three hearty cheers, which were returned by the soldiers in a lusty manner. The boats then left for the ship, and the Camp is now clear. The Scout will shortly leave for Esquimalt.

Origin of the "Fighting Editor."

The John Bull newspaper editor by Theodore Hook frequently indulged in offensive personalities in remarking on the conduct and character of public men. A military hero, who would persist in placing himself conspicuously before the world's gaze, received a copious share of what he considered malignant and libellous abuse in the columns of the said newspaper. His soldier's spirt resolved on revenge. An officer and a gentleman could not demean himself by calling on a hireling scribbler for honorable satisfaction. No! he would horsewhip the miscreant in his own den—the Bull would be taken by the horn!

Donning the uniform and arming himself with a huge whip, he called at the office of the paper, and scarcely concealing his agitation, inquired for the editor. He was invited by the clerk to take a seat in the room. He complied, and was kept waiting while the clerk, who recognized the visitor, ran up stairs and informed the editorial responsibility of his name and evident purport. After an aggravating delay, which served considerably to increase the ill temper of the officer, the door opened, and a coarse, rough-looking man, over six feet in height, with a proportionate breadth of shoulder, and armed with a bludgeon, entered the room.

Walking up to the surprised and angry visitor, he said, in a voice of thunder:

"Are you the chap as wants to see me?"

"You! No. I wish to see the editor of the paper."

"That's me; I'm the werry man."

"There must be some mistake."

"Not a morsel! I'm the head hitter of this Bull," said the fellow, bringing the nobbed end of his bludgeon in fearful proximity ot the officer's caput.

"You the editor! Impossible!"

"Do you mean to say I'm telling a lie?" roared the ruffian, as he again raised his knotty argument.

"Certainly not—by no means!" said the officer, rapidly cooling down, and dropping the whip and his wrath at the same time.

"Werry well, then! What are you wanting wi' me?"

"A mistake, my dear sir; all a mistake. I expected to meet another person. I'll call some other day," and the complainant backed to the door, bowing to the drawn stick before him.

"And don't let me ketch you coming again without knowing who and what you want. We're always ready here for all sorts of customers—army or naval, civil or military, horse, foot and dragoon."

The officer retired, resolving to undergo another goring by the Bull before he again ventured to encounter the herculean proportions of the fighting editor.

When the clerk informed the occupants of the editorial sanctum of the visit of the irate Colonel, neither Hook nor the publishers cared to face the horsewhip. A wellknown pugilist, the landlord of a tavern in the vicinity, was instantly sent for; a slight preparation fitted him for the part in which he acquitted himself with complete success. The story rapidly circulated and the reputation of the fighting editor of the John Bull prevented further remonstrances from persons who felt themselves aggrieved by the liberty of the press.

DIAMOND SPECTACLES

TRADE MARK

THESE SPECTACLES ARE MANUFACtured from "**Minute Crystal Pebbles,**" melted together, and are called **Diamond** on account of their hardness and brilliancy.

It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye because of their polarizing light.

Having been tested with the polariscope, the diamond lenses have been found to admit 15 per cent. less heated rays than any other pebble.

They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.

Manufactured by the Spencer Optical Manufacturing Company, New York.

For sale by responsible agents throughout the Union.

J. L. JUNGERMAN,

JEWELER AND OPTICIAN, IS SOLE AGENT FOR VICTORIA, V. I.

From whom they can only be obtained. No Pedlars employed.

The great demand for these Spectacles has induced unscrupulous dealers to palm off an inferior and spurious article for the Diamond. Great care should be taken to see that the trade mark <> (which is protected by American Letters Patent), is stamped on every pair.

Card of Thanks to Dr. Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr. Chong's Card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong whose charges, I may also say, were reasonable. My complaint was neuralgia. WILLIAM McCORMICK.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)

CHLORODYNE.

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION. Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE, that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely and mean no other than Dr Browne's.—See Times, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of these unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Cramp Rheumatism, Neuralgia, Croup, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A. Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other medicines had failed.

Dr Lowe, Medical Missionary in India reports (Dec 1865) that in nearly every case of Cholera in which Dr Collis Browne's Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed.

See leading article, Pharmaceutical Journal, Aug 1, 1869, which states that Dr J. Collis Browne was the inventor of Chlorodyne that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J Collis Browne's" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

HOLLOWAY'S

PILLS AND OINTMENT.

TRADE H MARK

Every Man his own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.
